## **Trihydro Corporation, a Laramie, WY-based Engineering and Environmental Consultant Introduces New Logo, Website, and Headquarters**

LARAMIE, WY, MAY 18, 2004... Trihydro Corporation – a proven provider of specialized engineering and environmental services – emerged today with a new logo, a refined brand identity and a new website. Additionally, the company announced that they will move into their new headquarters in mid-June. These changes position the company for continued growth and wider industry recognition.

This new era for Trihydro begins with the company experiencing a steady growth of employees, offices and large-scale projects. Trihydro employs over 130 employees nationwide, and has three regional offices and six U.S. project offices. Continued expansion is expected as the company pursues new projects in new markets.

“We’ve served a wide range of clients in many industries over the years,” explains Henry R. Richter, a company founder and President. “And now it’s time for us to expand and continue to move forward. With our new logo, redeveloped website and new headquarters, we’re aligning ourselves with the short and long term needs of our company and its clients.”

To reflect the new strategy and expanded offerings of the company, Trihydro has:

- Introduced a new corporate logo that significantly enhances the image of the company.
- Created a unified brand identity that leverages the many strengths of the company and communicates the unique qualities of Trihydro. The new identity features the tagline: Engineering Solutions. Advancing Business.
- Launched a new website that offers a client extranet.
- Announced the planned move to a new, 23,000 sq. ft. headquarters that will feature an upgraded base of operations and a next-generation IT Nerve Center.

Trihydro’s new headquarters will be located at 1252 Commerce Dr. The corporate phone and fax numbers will stay the same.

### About Trihydro
